

# SCHOOL & CLINIC AFFILIATE STANDARDS

Understanding Archer, LLC is proud to partner with clinics and schools throughout Texas. We aim to implement the highest standards and ethics in our partnerships, in order to achieve the best possible outcomes for the children and families that we serve.

## STANDARDS

- The best interest of the children and families we serve is the main priority for Understanding Archer clinicians. We only partner with clinics and schools that share this goal.
- No financial partnership is formed between Understanding Archer, LLC and their partner schools and clinics, with the exception of the potential payment of a space rental fee for the use of clinic or school facilities.
- Confidentiality is maintained between Understanding Archer and its patients and no private information is disclosed to clinics or schools without explicit written consent of the child's parents. This includes any contact between the family and our clinicians.
- Understanding Archer recommends services and clinics to families based on their individual needs and does not recommend a particular clinic based on Understanding Archer's relationship with them. For example, if a diagnostic assessment occurs on site at a particular clinic or school, Understanding Archer does not guarantee a diagnosis relevant to that clinic and does not guarantee a referral to that clinic. In addition, a competing clinic or school may be recommended, if in the best interest of the child and family being served.
- These standards are in place to ensure the highest ethics and provision of services for each individual child that we see. We expect that our affiliate schools and clinics will join us in meeting these standards and we may choose to end a relationship with affiliates that do not share the common goal of serving the best interests of our clients.
